**About Corindus Vascular Robotics, Inc.**

Corindus Vascular Robotics, Inc. [OTCQB: CVRS] is a global technology leader in robotic-assisted percutaneous coronary interventions (PCIs). The Company's FDA cleared CorPath 200 System is the first medical device that offers interventional cardiologists PCI procedure control from a radiation protective interventional cockpit. With the CorPath System, Corindus Vascular Robotics brings robotic precision to PCI procedures to help optimize clinical outcomes and minimize the costs associated with complications through improper stent placement. Corindus stands behind its technology with its unique \$1,000 hospital credit "One Stent Program."
